

Jan. 17- Spoke to, then met with, Sandra Johnson (240)-440-0676

- She was given the churches name by the manager at Woodspring Suites, where she is staying. Friend paid for room through 19th.
- She (along with 3 kids) attended Bible study at Katy on Wed. Jan. 18 and seems interested in the church. Says she would love to have a Bible study.
- We met with her after Wed. devo and learned a bit more about her situation.
- Has 4 children. (19, 10, 14 & 13). The 19 yr. old has different father than other three. She is away at school. The other 3 children were well behaved and courteous. They seemed to like the idea of being involved in church activities. They desperately need mentorship and Christian influence in their lives.
- Sandra left abusive husband. Physically abusive to her. She is legally married and does not plan to reconcile with her husband. She is filing court papers to collect child support.
- They came to Houston from Maryland. No family in TX. Husband does not have any family in TX.
- Her family was evicted from their rental home last Tuesday. She was able to salvage a few personal effects but some of the large appliances were picked up at the curb by neighborhood scavengers.
- She would like to return to Md. But doesn't have the funds to do so.
- No income. (gets monthly unemployment check) No job. Has a vehicle. Unemployment check was used to pay car payment and insurance.
- She had no food and very little money. We gave her two "sacks to share". I think they ate some of it in the parking lot.

- She seems to have had a professional career doing contract work as software Project Manager for various companies. She has had two interviews with the State of TX. The next move is that the state will do a background check on her for a position (direct hire) with the State at a development center on Hwy. 6. The job would tentatively start on Feb. 6.
- She also has had interview with a company in Minnesota and has a phone interview with company in Maryland on Friday.
- Even though it may be a few weeks before she would get first paycheck, I encouraged her to strongly consider the offer from TX. (benefits, insurance, security) etc.
- They attended "Go church" for a short while, but not attending any church now
- She does not know the current employment status of her husband except that he was employed at Amazon warehouse and was in line to become a delivery driver.
- She was to check out of the Woodspring Suites today by 11AM and did not have anywhere to go, except to stay in the van. I assured her that we would, at least, pay for one more night, while we discussed her situation. I have already contacted Tracy at Woodspring Suites and secured the room for tonight.
- It seems like she is trying desperately to find employment and does not like having to ask for help. Her situation demands that she do what she can to support her children and she is doing that.
- How can we help and how much should we do?
- Even though, she is not a Christian, I think she is very teachable and interested in understanding more about the Lord's church.
- I would be comfortable with paying for one month of rent at the Woodspring Suites (about \$1150) and providing them with 4 gift

certificate to Brookshire Brothers for groceries. This would keep them in a safe place while she secures employment.

- I also encouraged her to consider contacting other churches and agencies for support. She assured us that she is doing that.
- Please let me know which direction to take, as soon as you can.

Randy
